Summerhill Village Neighborhood Watch-

We have signed up as a Townhome community with the national *Neighborhood Watch* Program, in an effort to help criminals think twice about entering homes and the Summerhill Village Community.

WE NEED TO KNOW, if you are interested in participating and learning more about our Neighborhood Watch program. Please log on to www.summerhillvillage.org and express your interest via Email. Once we have gathered your names, we will organize a meeting with the local law enforcement agency to have them speak with our group and learn what we can do as neighbors to implement best practices to keep the criminals out of our area and know that we mean business!

Once we gather as a group, and speak with the local law enforcement agency (Issaquah Police), we will be able to order and place signage, utilize new technology Apps on our phones, and have a better handle on the prevention of criminal activity in our Summerhill community.

Please respond ASAP with your interest/participation, as in light of recent incidents, we would like to have a meeting set up by mid-May at the latest.

We appreciate your involvement and look forward to a crime free community!
